CAREER PROFILE

Technical Business Analyst and Project Manager with over 5 years of experience leading IT system/software development initiatives, digital transformation, and security-focused projects across banking, fintech, and logistics. Skilled in requirements elicitation, business process analysis, SDLC activities, and Agile delivery. Proficient in risk assessment, security compliance (PCI DSS, SOC 2, GDPR), and integrating cybersecurity best practices into IT solutions. Adept at collaborating with product owners to translate roadmaps into secure, scalable solutions. Strong communicator with expertise in systems analysis, stakeholder management, and leveraging innovation to drive business performance. Enthusiastically seeking roles in Technical Business Analysis, Project Management, and GRC.
